

# INDIVIDUAL

When working with our textile floor coverings, the customer, their project, and their individual requirements take center stage. We take the time to understand the needs and develop customized solutions that meet the highest design standards.

Let's work together on your unique idea!

# DESIGN UNIT

## CONSULTING

OBJECT CARPET offers a wide range of colors, textures, designs, and nearly limitless possibilities in the field of textile floor coverings.

We assist you in choosing the best possible solution for your project, whether on a small or large scale.

## NEEDS ANALYSIS

To meet the requirements of a project, one must know them precisely.

In close collaboration with our interior architects and designers, all relevant questions are clarified, and a comprehensive briefing is compiled as a well-founded project foundation.

## CUSTOM COLORS

OBJECT CARPET's collection comprises approx. 1200 different items, yet sometimes the perfect shade may not be among them.

We are happy to assist you in developing and implementing custom color schemes, drawing upon years of experience and expertise to always hit the right tone.

## DESIGN DEVELOPMENT

Exciting floor surfaces are created not only through colors or textures but also through patterns. From floral and playful aesthetics to clear and graphic impressions, both as eye-catching highlights in a space and as subtle components of an overall concept, carpet is a versatile design element.

We translate your ideas into reality!

## CONSTRUCTION

Whether it's customizing the color of a carpet or printing designs, you have a wide range of construction options available as a foundation. Together, we'll find the one that meets your requirements best and effectively conveys the design concept.

## SAMPLING

OBJECT CARPET is renowned for its fast and straightforward sample service. Even with custom solutions, we strive to provide you with textile samples in a short time frame.

From small individual samples for your material selection to personalized live sampling sessions – with you or your clients – we turn carpet into a tactile experience.

## VISUALIZATION

In two-dimensional floor plans and three-dimensional renderings, we present the ideas for your project.

In some cases, it can be beneficial to integrate a digital mock-up into a photograph of an existing space. In whichever format – our goal is to translate shared visions into images.

## PRESENTATION

We consolidate all thoughts, sketches and ideas in an informative and appealing format and present them in our collaborative discussions.

The exchange of ideas and working together on our proposals swiftly and effectively leads the project to its optimal solution.

## TECHNICAL PLANS

OBJECT CARPET's creative services are complemented by the development and provision of technical documentation and planning materials.

Quantity surveys, schematic plans for installers, and data sheets for documentation complete the comprehensive package.

Interested? Feel free to get in touch with us!

# CONCEPT

Our passion lies in the diversity of interior design, where we create a wide range of atmospheres using textile floor coverings. Through skillful color and material composition, as well as exciting and surprising combinations, the ambiance of a space can be completely transformed.

Take advantage of this for your project as well! We're here to support you.

## CONSULTING

OBJECT CARPET offers a wide range of colors, textures, designs, and nearly limitless possibilities in the field of textile floor coverings.

We assist you in choosing the best possible solution for your project, whether on a small or large scale.

## NEEDS ANALYSIS

To meet the requirements of a project, one must know them precisely.

In close collaboration with our interior architects and designers, all relevant questions are clarified, and a comprehensive briefing is compiled as a well-founded project foundation.

## CONCEPTS

Our interdisciplinary design team creates cohesive, exciting, and surprising product combinations within the context of every task.

Spatial translation in the form of areas and zoning is part of our repertoire, as is the compilation of suitable furniture and material suggestions.

## SAMPLING

OBJECT CARPET is renowned for its fast and straightforward sample service. Even with custom solutions, we strive to provide you with textile samples in a short time frame.

From small individual samples for your material selection to personalized live sampling sessions – with you or your clients – we turn carpet into a tactile experience.

## MOODBOARDS

Even though OBJECT CARPET revolves around textile floor coverings, we always view carpet as a part of the whole. According to the context of material and design, we make product selections and convey the desired atmosphere in digital as well as tactile moodboards—evocative, impactful, and guiding for the ongoing project.

## WORKSHOPS

We love to get creative with our carpets, and we want to share this with you! Around our wide product range, we offer joint workshops for you and your team.

From getting to know and combining colors and textures to applying and implementing them with digital tools, we are here to assist you every step of the way.
